

Doff® Advanced Concentrated Weedkiller MAPP18107 contains 90g/l glyphosate in a soluble solution. A systemic herbicide that kills the foliage and plant roots of unwanted vegetation. Weed control is initially seen as a yellowing of the leaves which die back after a few days or can take up to 4 weeks after application.

FOR USE ONLY AS AN AMATEUR WEEDKILLER
To avoid risks to human health and the environment, comply with the instructions for use.
READ ALL INSTRUCTIONS BEFORE USE

INSTRUCTIONS FOR USE: Maximum individual dose as a spray: 24ml product per sqm. Avoid all other spray contact with cultivated plants. If cultivated plants are treated by mistake, IMMEDIATELY wash off the weed killer with ample water. Extreme care should be taken to avoid spray drift or spray landing onto lawns and other desired plants as this may damage or kill them. **DO NOT USE ON LAWNS. DO NOT USE UNDER POLYTHENE OR GLASS.**

To avoid possible transfer to lawns or green areas do not walk on treated areas until the spray has dried. Apply this product carefully. Ensure spraying takes place only when weeds are actively growing (normally March to October) and is confined only to visible weeds including those 30cm swath covering the kerb edge and road gully - do not overspray drains.

When to use: Apply when the weeds are actively growing, and the leaves fully developed. This can occur at any time from Spring to Autumn with the optimum time usually from June to September. Apply at least 8 hours, preferably 24 hours before rainfall for satisfactory results. Do not spray in windy weather. Some tough weeds e.g. willow herb, may need a repeat treatment after 3-4 weeks if re-growth appears. Repeat once only during the growing season.

Where to use: Wherever unwanted weeds are to be controlled, including hard surfaces e.g. patio and drives.

How to use Dosage: Maximum individual dose as a spray: 2.4 ml product per sqm

Garden sprayer: Pour the contents of the 80ml sachet of Doff® Advanced Concentrated Weedkiller into 800ml of clean water and agitate after closing.

Spray the entire weed especially the leaves when they are dry but avoid excess run-off. Diluted solution will treat 32sqm. When applying, spray must be directed away from non-target plants.

Future Planting: Doff® Advanced Concentrated Weedkiller has no residual activity in the soil. Planting may take place after the treated vegetation has died back.

Care of Equipment: After use, wash equipment thoroughly with water three times to remove all traces. Dispose of washing water on unplanted, bare ground. Traces of spray left in the equipment may seriously damage or destroy plants sprayed with the same equipment at a later date. Keep children and pets away from treated area until dry.

Harmful to aquatic life with long-lasting effects

Avoid release to the environment. IF ON SKIN: Wash with plenty of soap and water. IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses if present and easy to do - continue rinsing. Contact your local council for details. Collect spillage. Dispose of contents/container to a household waste recycling centre as hazardous waste except for empty containers which can be disposed of in a dustbin. Contact your local council for details. **To avoid risks to human health and the environment comply with the instructions for use.**

SAFETY INSTRUCTIONS

Protection during/in use

AVOID ALL CONTACT BY MOUTH. KEEP AWAY FROM FOOD DRINK AND ANIMAL FEEDING STUFFS. WASH OFF SPLASHES IMMEDIATELY. DO NOT BREATHE SPRAY. WASH HANDS AND EXPOSED SKIN AFTER USE. If swallowed seek medical advice immediately and show this container.

Environmental protection

Direct spray away from ponds and other surface water bodies. Do not apply during windy conditions so that spray does not drift onto other plants. Dispose of contents/container in accordance with local authority regulations. Do not contaminate water with the product or its container. Do not empty into drains.

Storage and disposal

KEEP AWAY FROM FOOD AND DRINK. KEEP PRODUCT AWAY FROM CHILDREN AND PETS. KEEP PRODUCT IN ORIGINAL CONTAINER, tightly closed in a safe place. DO NOT STORE half used sachets. DISPOSE OF EMPTY CONTAINER IN THE DUSTBIN. PROTECT FROM FROST.

This product is approved under EU Regulation 1107/2009
